

Round-the-World Tourists Call at Town Offices

Gathering Experiences of Touring
Through Foreign Countries--
Visited Seventeen Countries

Travelling by motor cycle and a side car, two adventurous young men, J. Gill and Phil Irving, stopped over in Coleman for a brief spell on their round the world tour. They left England just over a year ago, and travelled via Europe, Africa, India to Australia; thence to the Hawaiian Islands and Vancouver, proceeding eastward via Cranbrook, Lethbridge, and Regina to Winnipeg, whence they proceed to Ottawa to present a letter to Hon W. L.

168 Guesses on Rug

2745 was the sealed number in the Congoleum rug guessing competition at Pattinson's hardware store, and the guess nearest to it, as checked by W. L. Rippon and H. F. Halliwell, was 2684, by Mrs. E. N. Dibble. Guesses ranged from 1 to over 7,000, and 168 persons placed guesses in the box.

Announcement

Mr. and Mrs. A. E. Guerdard desire to announce the engagement of Miss Virginia Editha Dalgleish, daughter of Mr. and Mrs. F. A. Dalgleish, of Queenston, Ont., to Mr. Joseph Kostyn Petrunick, of Coleman, Alta., the wedding to take place the latter part of June at St. Paul's United church, Coleman.

Mr. and Mrs. Celli motored to their fruit ranch at Creston, and Mrs. Grant went with them as far as Cranbrook to see her husband, who is taking Chiropractic treatment.

Mackenzie King from the premier of Australia

They had travelled by land 17,000 miles, which they expect will total 23,000 by the time they reach England late in June. Their car bore souvenirs of seventeen countries which they had passed through, including the Star and Crescent of Turkey.

They finance themselves by the sale of postcards, short addresses at theatres and radio broadcasting, and on the completion of the tour Mr. Gill will write a complete story of his experiences for a daily news paper published in his home county of Yorkshire, England.

They secured a voucher of their call here signed by Mayor Jas. Moores and Jas. Ford, town clerk

Getting Ready for Shriners

Between 30,000 and 40,000 members of the Ancient Arabic Order of Nobles of the Mystic Shrine will meet in Toronto next June under the leadership of Esten A. Fletcher (inset), Incoming Imperial Potentate of the Order. Hotels of the city, including the Royal York with its 1154 rooms will be insufficient to meet the demand, and the Canadian Pacific Railway is building a city of sleeping cars to accommodate some 8,000 of the Shriners. "Pex City", as it will be called, will cover 21 acres of land and construction data given out show the tremendous scope of the labour. There will be required 115,000 feet board measure in 30 sets of switch ties weighing 210 tons; 12,900 track ties weighing 800 tons; 30 switches weighing 85 tons; 11 1/2 miles of 85-lb. rail weighing 760 tons; 35,000 tie plates weighing 150 tons; 60 tons of rail fastenings; 50 tons of track spikes; 6 tons of track bolts; 18,000 cubic yards of ballasting for tracks; and 9,000 cubic yards of material for 3 1/2 miles of platforms with a breadth of 14 feet. The city will be fitted with modern conveniences and a building 220 by 20 feet wide will accommodate 100 cold and hot showers. Lighting will require 75,000 watts, enough to supply 14 miles of city residential street lighting power. This electrical work will call for 35 miles of wire strung on 200 poles. Photo shows site of Pex City.

"Wedding Bells" on Friday

"Wedding Bells," a comedy with a plot somewhat out of the ordinary, is the latest addition to the repertoire of the Coleman Players, who have brought to the public of Coleman some of the funniest and most successful productions of the London and New York stages. The company, which includes many of the old favorites and a number of new players, will present "Wedding Bells" at the Coleman Opera House on Friday evening, May 16, and judging from past performances the theatre going public of the Pass may be assured of an evening of real fun and entertainment.

When Reggie put his shoes outside his door to be cleaned and Pinkie chewed one of them up he forged the first link in a chain that stretched across the Pacific to Japan, China and India, and back to California and New York. How it all came about and how lines were upset and set right again will be told as the players unfold the plot of "Wedding Bells" on Friday evening.

Former Coleman Boy Makes Brilliant Show- ing McMaster Univ.

Fred Antrobus, jr., Heads Class
of 50 Students in Final Year
at University

Fred Antrobus, son of Mr. and Mrs. Wm. Antrobus, on completion of his final year at McMaster University, Toronto, was graduated with the highest marks in a class of fifty students. He received his public and high school education in Coleman, and studied for two years at Alberta University before proceeding east.

He has received an appointment in the Baptist church ministry in Peace River district.

Attending the graduation exercises at Yorkminster church, Toronto, were Mr. and Mrs. William Dewar, (sister of Mr. Antrobus) of Newark, N. J. He is expected home in Coleman shortly, where his friends and acquaintances will join in congratulating him on his brilliant record at McMaster.

Weed Control Programme

The Alberta Department of Agriculture has now completed its plans for the weed control programme of 1930.

Under the Field Crops Branch the Province has been divided into fifteen districts. In each of these districts a Field Supervisor will be stationed. His duties will be to co-operate with Weed Inspectors appointed by Municipal Councils, and in Local Improvement Districts, in general Weed control work and the enforcement of The Noxious Weed Act.

Farmers of the Province are urged to avail themselves of the services of these men. Their office centres are being advertised in this issue.

The Canadian Legion will celebrate Dominion Day in Coleman by holding a general sports day and a two days carnival.

Italian Fraternal Lodges Convene Here May 18

Alberta and British Columbia
Lodges Will Send Large Number
of Delegates

A convention of the Ordre Indipendente Fior D'Italia will be held at Coleman on May 18, and all the grand officers and delegates from Alberta and British Columbia will be present.

The most important business to be discussed will be the enlargement of the order all over Canada. As Fernie is the headquarters of this order it is suggested that the next convention be held here and every possible effort will be made to do so. The last convention of this order to be held in Fernie took place in 1923, but on account of the poor reception they received no effort was made to have it held here again—Extract from Fernie Free Press

Coleman members will join in heartily welcoming the visitors and will co-operate in making their stay here as pleasant as possible

Personal and Local

Mr. and Mrs. Steve Machin have returned home from Edmonton.

Crows Nest Pass school sports will be held at Hillcrest on Empire Day, May 23.

Miss Eleanor Neilson, nurse-in-training at Calgary general hospital, is home on three weeks vacation.

Miss Eileen Cousins left on Monday morning for Nelson general hospital, where she is a nurse-in-training, after being home for several months rest.

Frank Graham, sr., received a letter from Will McGrath (Bill) from Peace River district, who states that he likes the appearance of the country, and will likely settle down in business there at his trade of barber.

NEW APPOINTMENT

When Food Sours

About two hours after eating many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been overstimulated. There is excess acid. The way to correct it is with an alkali, which neutralizes many times its volume in acid.

The right way is Phillips' Milk of Magnesia—just a tasteless dose in water. It is pleasant, efficient, and

harmless. It has remained the standard with physicians in the 50 years since its invention.

It is the quick method. Results come almost instantly. It is the approved method. You will never use another when you know.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

Pleased With Tour

British Headquarters Enthusiastic Over Reception Accorded Them in Canada

The party of English headquarters, who have been touring Canada, returned to Toronto enthusiastic over the reception tendered them throughout Canada and confident that the tour would result in the right kind of English boy being sent to Canada.

Dr. Cyril Norwood, chairman of the party, said that after studying Canadian educational methods, they would advise "quality immigration."

"We shall not advise our boys to come to Canada, unprepared, without money, expecting to find posts waiting for them," said Dr. Norwood. "We shall tell them there are excellent universities, and that after leaving them they must make opportunities for themselves."

Dr. Norwood believes that members of the Nordic strain are easily assimilated into the country, but that the flow from central Europe should be stopped.

Asthma Doesn't Wear Off Alone. Do not make the mistake of waiting for asthma to wear away by itself. While you are waiting the disease is surely gathering a stronger foothold and you live in danger of stronger and yet stronger attacks. Dr. J. D. Kellogg's Asthma Remedy taken early will prevent unpleasant condition from becoming chronic and save hours of awful suffering.

Protecting Wild Geese

Manitoba Alarms Fined Ten Dollars For Chasing Them

For disturbing the peace of Manitoba wild geese by chasing them in an airplane, Philip Osler was fined \$10 and costs by Magistrate R. M. Noble in provincial police court.

Garc Warden Durant told the court that Osler had worried thousands of the birds, during the close season, when, in his plane, he pursued them between Rosser and Meadows.

He was told to advise his aviator friends to cut out the sport.

In the last ten years the Canadian Pacific has spent \$100,000,000 on new vessels built in British yards.

Spain's first olive oil congress was recently held at Brazil.

MacDonald's Message To McGill

Turns To Scriptures For Advice To University Students

Premier Ramsay MacDonald draws inspiration from the Scriptures when asked to pen a message to McGill students through the medium of the McGill Annual, which is dedicated to him.

"I write this looking over the rural grace of Chequers Park, but with McGill in my mind," Premier MacDonald states in his message. "You ask me for a few words more for the students. What of them? 'Whatever thy hand findeth to do, do it with all thy might.'"

Worms are encouraged by morbid conditions of the stomach and bowels, and so subvert. Miller's Worm Powders will alter these conditions almost immediately and will sweep the worms away. No destructive parasite can live in contact with this medicine, which is not only a worm destroyer, but a health-giving medicine most beneficial to the young constitution.

An order was made recently, at Blackpool, Eng., for the payment of a debt of \$60.90, at the rate of six cents a month, which will require more than 80 years to clear up the account.

Elevated playgrounds about 14 feet above street level are proposed for the use of children in New York's crowded tenement districts.

Can "Good" Be Accomplished By "Force"?

Through the ages as man has struggled upward from his cavelike state to his present condition of semi-civilization—for it requires only a hurried glance through the columns of any daily paper any day to prove that man is not yet fully civilized—he has carried with him the brute instinct to try and accomplish things by force rather than by persuasion; instead of trying to win support to his views and convictions, he has tried to force it. The more civilized, the better educated man becomes, the more does he rely upon appeals to reason instead of having resort to force. None the less the state of the nations today, and our tendency to resort to the power of legislation and law to enforce opinions upon others, reveals how largely we still depend on force to govern our everyday affairs.

The question, therefore, naturally arises: Has any definite-lasting good ever come to humanity through the coercive action of force? Could one find a single, unquestionable instance in the whole range of human history where compulsion has been the direct and sole agency in changing the mental attitude, the belief, the convictions or the conscience-sense of any one normal intelligence? Without reserve one may venture to say "No" to both questions.

There is profound truth in Butler's couplet: "He that compels against his will is of his own opinion still." One may be persuaded to change one's mind, to take a different viewpoint, to espouse another belief, to modify or discard a long-held conviction, to give conscience a new direction, and through it all to act differently—the action being either good or bad according to the prevailing general opinion; but it is sincerely to be doubted that force, no matter what its form or its avowed purpose, ever has or ever will bring about the only thing—a change of mind and heart—that is necessary to produce a new line of action. Without the voluntary conversion of the individual mind and heart, that is, of thought and conscience, there can be no reasonable expectancy of bringing about, definitely, permanently and dominantly, a new condition—social, economic, political, ethical, or moral. All our social reformers, our political leaders, our legislators, would do well to ponder this thought and pay closer heed to the lessons of experience and history.

If we would study impartially the action of unleased force directed with the ostensible purpose of producing eventual good, we may turn our eyes toward Russia today. True, the conflicting reports coming out of the country advise us to draw conclusions with a certain reserve; yet there is enough of what appears to be authentic to warrant the present view that the Soviet Government of Russia is using compulsion in the fullest meaning of the term, to impose its minority, compactly organized will upon the unorganized majority of that vast country.

The Communists may tell us, as well as some three-fourths of the people of Russia, that persuasion, through "propaganda," is their chief agency for the building of a "New Russia"; but it is propaganda backed by armed force, by studied cruelty, and by unremitting terrorism. Putting the most charitable construction upon the Soviet's methods for the complete communization of Russia, they are trying to do what they consider to be good practically altogether by the exercise of force. A marvellously organized minority seeks to compel a helplessly disorganized majority to accept without question its views as to what is best for the political, social, economic and moral well-being of the whole.

And all history tells us that this cannot be done. Reform by force lasts just so long as the force which brought it about is strong enough to maintain it. Force not only invites opposition, but generates it. And soon or late, the opposing force becomes the more powerful, and we have another clash of forces, more disturbance and confusion, reaction, or, perhaps, some more compulsory "reformation." But we cannot say confidently that out of it all has come a single, definite step of progress. Force is the antithesis of co-operation, and without the voluntary co-operation of all the interests involved there can be no genuine progress.

What is true of Russia just now, would be equally true of any other country, or state, or community. No matter how desirable the proposed or initiated reform may be, force, if applied to it, eventually will defeat it. Without the voluntary and earnest co-operation of a pronounced majority of all concerned even unquestioned good is not likely to be achieved. And surely no intelligent person would be content with "forced good."

Learns To Read At Eighty-Two

A resident of Mount Clare, at the age of 82 years, is learning to read. The aged student said he was making fair progress and expected soon to be able to read a newspaper. He said that he never dreamed that there was a word such as is being unfolded to him by the printed page.

W. N. U. 1837

Waging War On Accidents

Only 15 per cent. of safety can be assured by perfection of mechanical detail and the remaining 85 per cent. is a matter of education, declared W. E. Darling, of Cincinnati, before the Ontario Safety Convention. Mr. Darling, a blind man, told an attentive audience of his own personal experience, of an accident which brought disfigurement and loss of sight, and he urged with eloquence that the work of preventing industrial accidents should be prosecuted with unrelenting energy.

The Port de Guise, the famous old gateway at Calais, France, which was threatened with demolition, has been saved by the government by being classed as an historic monument.

Miranda Checks Falling Hair.

Canada Has Barred Importation Of Parrots

First Outbreak Of Parrot Fever Is Reported From British Columbia

Canada will declare immediately an absolute embargo on the importation and transportation of all birds of the parrot species as a result of representations from the British Columbia Department of Health, which is now engaged in systematic efforts to stamp out parrot fever.

Meanwhile, Dr. H. E. Young, provincial health officer, and his department, are engaged in a systematic campaign to confine the outbreak of parrot fever to a few cases around Vancouver.

They have been in telegraphic communication with United States authorities to secure the latest possible information on the subject.

"This is the first outbreak of this disease, so far as we know in the history of Canada," Dr. Young said. "The health department here has records of all parrots brought to Canada from the Orient in recent months, and is endeavoring to ascertain their present whereabouts so that they may be examined."

Pains Around Heart

Weak Spells Would Fall Over

Mrs. James Vanastine, Pibroch, Man, writes:—"I had pains around my heart, and suffered with weak, smothering spells. Sometimes would fall over and would have to be picked up and put to bed."

"I used several boxes of

and it is now over three years since

"I hope anyone who is in the same condition I was will give H. & N. Pills a fair trial."

The British Guild of Blind Gardeners enjoys gardening instruction for all sightless children. Blind gardeners can prune fruit trees, sow seeds and thin out vegetables.

Children Cry
for
Fletcher's CASTORIA
A BABY REMEDY
APPROVED BY DOCTORS
FOR COUGHS, COLIC, DIARRHEA

Prominent among the spring promotions of Canadian Pacific Railway officials was the appointment of R. G. McNeillie, as assistant passenger traffic manager of eastern lines, with headquarters at Montreal. Mr. McNeillie, who was general passenger agent, at Winnipeg, for eight years, left at the end of April for the east, his new appointment becoming effective May 1.

Mr. McNeillie entered the service of the Canadian Pacific Railway in 1901, as a stenographer in the general passenger department, at Winnipeg, becoming chief clerk in 1905. In that year he became acting district passenger agent at Nelson, B.C., and district passenger agent at Calgary, in 1910. He was promoted in 1913 to the position of assistant general passenger agent, eastern lines, and in that year he became acting district general passenger agent in 1922.

Before his departure for Montreal, Mr. McNeillie was remembered by the members of the passenger department from the head of the lakes to Field, B.C., and at Minneapolis with a handsome liquor set, with cut glass decanters and glasses, and a wardrobe suit case, the presentation made by C. E. McPherson, who is now acting in an advisory capacity to the passenger department.

WAS RUN DOWN AND VERY WEAK

Too Little Blood the Trouble

Mrs. Jas. A. Haughn, Bridgewater, N.S., writes:—"I was badly run down and very weak. So much so I could scarcely do my housework. My health was so poor, I had continued headaches and could not get a restful night's sleep. Different remedies failed to be of benefit and I was growing discouraged. One day, however, I saw an advertisement for Dr. Williams' Pink Pills, so I decided to try them. A few weeks' use of the Pills fully restored my health and now my household duties are a pleasure instead of a torture."

Mrs. Houghn's whole trouble was that she had too little blood. Dr. Williams' Pink Pills were of aid to her because they renewed and purified her blood and that good blood promoted good health, for where good blood abounds disease cannot exist.

You can get these Pills from any druggist or by mail at a cost of 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Dates From Middle Ages

The expression, "The weakest goes to the wall," dates from the Middle Ages. In those days churches lacked pews, and the congregation stood on the rush-strewn floor of the nave throughout the service. Along the wall was a long stone seat, which was used by the aged and infirm. The seats which gave rise to the expression may still be seen in some churches.

Mothers Value This Oil.—Mothers who know how suddenly croup may seize their children and how necessary prompt action is in applying relief, always keep at hand a supply of Dr. Thomas Electric Oil, because experience has taught them that this is an excellent preparation for the treatment of this ailment. And they are wise, for its various uses render it a valuable medicine.

Love not only "makes the world go round," but makes many a human inhabitant of the world go straight.

Douglas's Egyptian Liniment should be in every household. Stops bleeding at once, counteracts wounds and prevents blood poisoning. Keeps away inflammation and prout flesh.

Air Service For Venice
Venice, the famous gondola city of Italy, is to have airplane connection with the outside world. A new commercial air service from Trieste to Marseilles is making an intermediary stop there, where it connects with the lines from Vienna and Rome. Tri-motored seaplanes are being used.

Heal the Sprain with Minard.

WIDER BRITISH PREFERENCE IS BEING SOUGHT

A sub-amendment to the budget made its appearance from the Progressive group. Moved by W. R. Farnsworth, Progressive, East Mountain, Sask., it reads as follows:

"That all words after 'it is of the opinion that' in the amendment in the 10th line thereof be struck out and the following substituted therefor:

"The government having definitely adopted the principle of increased protection, modified only by certain extensions of the British preference, it is to be regretted that more effective consideration has not been given to the position of agriculture and labor, but that, on the other hand, the changes made in the iron and steel schedules will result in an increased cost in respect to all structural work and the machinery of production, and further, that the best interests of Canada would be served by a more substantial increase in the British preference, particularly as affecting textiles and other articles of a similar character, together with a modification or abandonment of the regulations requiring a 50 per cent. Empire content which have largely nullified the effect of any preference given."

"That a much larger proportion of our revenues should be provided for through direct taxation, more especially through the Income Tax."

"We further wish to state our conviction that these and other changes in our fiscal policies are not of themselves a solution of our modern economic problems but that effective encouragement should be given to the development of co-operative principles, having regard to production, distribution and the utilization and control of credit."

Mr. Farnsworth asserted that the regulation which requires that there be 50 per cent. British materials and workmanship in certain commodities in order that they may obtain the benefits of the preferential tariff, was making it harder and harder for goods to come into Canada from Great Britain.

Aviator Makes Heroic Flight

But Failed in Effort To Save Life of Wounded Boy

Edmonton, Alberta.—An heroic 160-mile trip by plane from Grande Prairie to the bush-covered Sturgeon Lake area 80 miles to the eastward and return, failed to save the life of a 17-year-old boy who was accidentally shot, according to meagre reports just received in Edmonton. The name of the youth is at present unknown.

Flying Officer Spadrow, of the forestry patrol at Grande Prairie, dared unknown dangers in a desperate effort to reach the wounded youth, and after dodging and twisting between trees, finally landed his machine a mile and a half distance from the boy's home. The lad was brought over the intervening distance in a wagon, across a corduroy road. He died while the plane was speeding toward Grande Prairie.

Increase In Savings

Bank Deposits For March Showed Considerable Advance

Ottawa, Ont.—Savings deposits in Canadian banks increased by \$15,575,817 during the month of March, according to the bank statement issued through the Department of Finance. At the end of March, savings deposits held by the banks totaled \$1,455,311,592. There was a decrease during the month in the amount of call loans held outside Canada by the banks, and an increase in the amount held in Canada.

Will Make Tour Of Dominion

New York.—Hon. J. E. Fenton, Australian Minister of Trade and Customs, who arrived here recently, after attending the London Naval Conference as Australian delegate, will travel through Canada on his return trip to the commonwealth. He will visit Eastern Canadian cities and then journey westward, reaching Vancouver, May 24, sailing from Victoria, on the liner "Araragi," May 28.

U.S. Naval Program Bill

Washington.—A naval building program costing the United States approximately one billion dollars and designed to bring parity with Great Britain within 10 years, is contained in a bill to be introduced by Chairman Britten of the naval affairs committee.

W. N. U. 1237

Expect Premier King Will Be Candidate

Prince Albert Liberal Association Working On That Assumption

Prince Albert.—From Dr. G. A. Robertson, president of the Prince Albert Federal Liberal Association, it was learned that the organization is working on the assumption that Prime Minister W. L. Mackenzie King will again run in this riding.

"The premier," Dr. Robertson stated, "had assured us that as long as we had him, he will be the Liberal candidate for this constituency. Practically all the polls have already forwarded resolutions of confidence in Mr. King to us. A convention will be held only as a matter of form but the date has not yet been decided upon."

Conservatives in the riding are holding a nominating convention here, June 6, and among the names mentioned as probable candidates is that of George Braden, well-known Redoubt Conservative; D. L. Burgess, Macdonald, who opposed premier King at a previous election is also mentioned.

Harry Davis, unofficial leader of the Labor element in Prince Albert, when asked recently if his forces contemplated taking an active part in the coming election, declared that such was not the present intention but that they were gathering their strength for the next provincial tilt.

Many Are Seeking Broadcasting Licenses

Majority Not Likely To Be Considered Until Election Is Over

Ottawa, Ont.—More than 200 applications for broadcasting licenses have been submitted to the Department of Marine, which department has charge of radio services. The great majority of these will likely be held in abeyance until after the general elections, it was intimated by departmental officials. Some of the more extensive projects may be authorized but the others will have to wait.

One of the applications which may be granted very soon is one from the Canadian Pacific Railway for permission to erect three high powered broadcasting stations, one in Montreal, one in Toronto and one in western Canada, at a point to be selected later.

The general impression on Parliament Hill is that the committee selected by the House of Commons to consider the recommendations of the royal commission that investigated broadcasting, will not proceed in view of the impending dissolution. Students of the problem of broadcasting will give an opportunity to crystallize public opinion either for or against public ownership and in the meantime the report will be allowed to stand over.

"Wop" May Visit Ottawa

But Distinguished Aviator Slips Away Without Seeing Officials

Ottawa, Ont.—Slipping through the city so quietly that officials of the Department of National Defence, who had been waiting for him, did not know that he had actually been here, Captain W. R. "Wop" May, Edmonton, recently awarded the McKee trophy as the Canadian having contributed most to the cause of aviation in 1929, paid a brief visit to the capital on May 6.

Since the award of the trophy was announced, air officials have been anxious to get in touch with the noted flier, to inform him of his success. Had Col. J. L. Rabston, Minister of National Defence, known the winner of the trophy was in the city, his departure would undoubtedly have been delayed in order that formal presentation might be made to him of the great honor he takes back west.

May came down onto the Ottawa River, opposite Rockcliffe aerodrome, in one of the new Bellanca monoplane just purchased by the Airways Company of which he is chief pilot. After refueling and having a brief chat with mechanics—during which he spoke rather heartily of his success in being awarded the prized trophy—May took to the air again, bound for Sudbury, Ont., and eventually Edmonton.

Heavy Liquor Shipments

Vancouver, B.C.—With the cancellation of licenses for export liquor warehouses effective June 11, as provided for in Federal Legislation, heavy shipments of liquor from Vancouver to Europe have been made during the past two weeks. Recently the steamship "Pele Pioneer" took 21,150 cases of bonded liquor back to the United Kingdom and the motorship "Drehtydick" carried 700 cases.

Elimination Of Weed Seeds Is Discussed

Proposition Made To House Of Commons By G. G. Cotte

Ottawa, Ont.—Elimination of weed seeds from feed oats and barley was proposed before the agriculture committee of the House of Commons by G. G. Cotte (U.P.A., MacLeod). He wanted the establishment of feed grades of these grains free from weeds and believed weed seeds could be cleaned out of oats and barley.

The difference between the grades of feed oats and of weed oats in the present schedules of the Act, it was explained, is that feed oats might be frozen. Other members of the committee considered the suggestion impracticable. The matter was left over for further consideration.

BRITAIN WOULD CONSIDER LAND SETTLEMENT AID

The Pas, Man.—The British Government is ready to consider any feasible project to promote land settlement in the Carrot River Valley, according to a letter received by town officials from the secretary of state for dominion affairs.

The Carrot River Valley lies to the southwest of The Pas, and includes land in both Manitoba and Saskatchewan.

The letter from the overseas department points out, however, that settlement aid from England would necessarily be subject to certain conditions, such as the Empire Settlement act of 1922, and financial support from either the Federal or Provincial Governments or both. The letter also points out that the British Government does not contemplate purchase or ownership of land in Canada for settlement purposes.

The communication from the British Government says in part that "consideration of His Majesty's Government in the United Kingdom of any such scheme of settlement and development must necessarily be governed by the provisions of the Empire Settlement act of 1922, which empowers the secretary of state, in association with the government of any part of His Majesty's dominions or with the public authorities or public or private organizations either in the United Kingdom or in any part of such dominions, to formulate and co-operate in carrying out agreed schemes for affording joint assistance to suitable persons in the United Kingdom, who intend to settle in His Majesty's overseas dominions, provided that the contribution of the secretary of state shall not in any case exceed half of the expenses of the scheme."

"Subject to the above conditions His Majesty's government in the United Kingdom would be prepared to give careful consideration to any concrete proposals for promoting land settlement in Canada by migrants from the United Kingdom, provided such proposals were approved and recommended by, and preferably received a financial contribution from, His Majesty's government in Canada or from the provincial government."

The secretary was instructed by council to forward a copy of the letter to the Minister of Natural Resources in Winnipeg, and also to the Premier of Saskatchewan.

TRAIN TELEPHONE NOW A FACT

The Canadian National Railways, which first made possible the reception of radio concerts on board a moving train, an invention which many first class railroads have since copied, have achieved another mechanical triumph by perfecting the first two-way system of telephone communication in the world with moving trains. "The system has been put into public service by the company on 'The International Limited,' which covers the 334 miles separating Montreal and Toronto in 360 minutes, the fastest train in the world traversing a like distance.

The photograph shows Sir Henry Thornton, Chairman and President of the Canadian National Railways, inaugurating the telephone service from 'The International Limited' while the train is travelling at 60 miles an hour. At the train switchboard is J. C. Burkholder, Chief Engineer of the Canadian National Telegraphs, who developed and perfected the train telephone system.

AWARDED SCHOLARSHIP

Miss Katherine Pless, student at Ontario College of Education, Bloor St., Toronto, who has been awarded an Ontario government scholarship of Sorbonne University, Paris.

Preference Is Re-Established

Australian Government Will Continue Preference To Returned Soldiers

Canberra, Australia.—The Labor Government of Australia has, in the face of strong public opinion, moderated one of its ordinances passed in favor of the trades union movement.

Prime Minister James Scullin announced the government was reverting to the former regulation which gave first preference to returned soldiers on government work contracts, and second preference to trades unionists.

The recently-announced decision of the government to abolish the preference to ex-soldiers unless they were also trades unionists, roused a storm of indignation, and veterans' organizations all over Australia were commencing to organize a campaign to fight the government's action.

To Broadcast From Dirigible

Story Of Flight Of R-100 Will Be Given Direct From Airship

London, England.—It was understood here that the Canadian National will broadcast the story of the flight of the R-100 direct from the dirigible.

When asked regarding the above despatch, E. A. Weir, director of radio of the Canadian National Railway, stated that details of an agreement to broadcast the story of the flight were underway and that the broadcast would be carried over the Canadian National network throughout the Dominion, direct from the airship.

Walking Across Canada

Montreal, Que.—With a knapsack on her back, Hon. Katherine Trevelyan, daughter of Right Hon. Sir Charles Phillips Trevelyan, Minister of Education in the British Government, arrived in Montreal on board the Cunard liner "Albatross." Alone she has set out on foot on a walking tour of Canada as far west as the Rockies, and intends if possible to get through to Vancouver.

Bill Given Third Reading

Ottawa.—After a tempestuous hour in which there were four roll call divisions, the House of Commons gave third reading to the bill to establish divorce courts in Ontario. The vote on the third reading stood, yeas 100, nays 85.

Plan Important Survey Work

Far North Area To Be Mapped From Air

Edmonton, Alberta.—Aerial surveys of the far north, inspection work by three field parties under direction of the Department of the Interior, opening of a branch office at Fort Smith, and the transfer to that point of staff from Winnipeg and The Pas, have been announced here.

An aeroplane base is to be established at Fort Resolution, arrangements having been made by the Department of the Interior with the Royal Canadian Air Force. This will be utilized to facilitate important survey work which will be carried out by the Federal Government.

These steps to increase staff and services in the far north are being undertaken by the Department of the Interior in view of the enlarged operations of exploration companies and prospectors.

Exhibiting At British Fairs

Canada Taking Part In Eighteen During Present Year

Ottawa.—Canada is participating in 18 exhibitions and trade fairs in Great Britain during the present year, in addition to the British Industries Fair, which was recently held at the Olympia Building, London, England. Most of these exhibitions are being held under the auspices of the Empire marketing board and will enable Canadian produce to be exhibited in most of the industrial centres of England, Scotland and Ireland. In addition, Canada is actively participating in the six months' International Exhibition at Antwerp, which opens on April 26.

Request Will Be Considered

C.N.R. May Make The Pas Divisional Headquarters

The Pas, Man.—The request of town officials that The Pas be made the headquarters for the Canadian National Railways lines in northern Manitoba, will receive active consideration, according to advices received from the department of railways and Sir Henry Thornton, C.N.R. president.

A letter received by the town clerk states that the minister of railways will make enquiries in the matter, and will keep local officers advised of developments.

CIVIL RIOTS IN INDIA REPORTED TO BE SUBSIDING

London, England.—As suddenly as they had flared up India's civil disobedience disorders subsided. From a widely flung storm of violent encounters, Mahatma Gandhi's campaign of resistance to the government subsided down to a few widely separated clashes.

The worst of these, costing nine lives, occurred at Chittagong, which was also the scene on April 18, of a battle in which two Europeans and several natives were killed.

Again at Calcutta armed police were compelled to act. A mob raided the police station, smashed in its iron gates and there was checked. Several police officers suffered injuries and 25 arrests occurred.

Simla reported officially that four deaths had occurred in recent riots. In the civilian hospital 96 persons were treated. To this number were added 18 police injury cases.

Advices from Delhi stated that patrols of cavalry, infantry and armored cars were being maintained there.

The arrival of V. J. Patel at Bombay, and his pronouncement for a widespread boycott against British goods was the outstanding development in that district. Despatches did not indicate how Mahatma Gandhi's followers would accept this attitude.

The comparative quiet in Bombay was broken only by an early onslaught of a mob upon textile workers who sought to prevent reopening of cotton mills.

The government continues to avoid any action which might tend to inflame the native mind. Moderate Indian opinion, it was stated, continues to support the government.

There was a hopeful forward looking attitude for the proposed round-table discussion.

Thus far the government forces have emerged with only one fatality, the killing of a British citizen in Peshawar. This was pointed to as a matter for congratulation as well as an indication of the prompt action taken by the authorities.

MINISTER WARNS AGAINST LOWER GRAIN ACREAGE

Wheat producers of Canada have nothing to gain by cutting down production. Hon. James Macdonald, Minister of Trade and Commerce, told the House of Commons committee on agriculture. The committee was considering the new Grain Act and the minister took advantage of the occasion to make a few comments on the grain situation.

The Canadian problem, he said, was more economical and scientific production. Recent experience, he said, had shown that high-priced wheat encouraged the use of substitutes in European countries. Through the application of chemical treatment European millers were now able to make a fairly good flour out of low grade wheat.

Canada, said the Minister, produced the best wheat in the world and by scientific methods could produce wheat more cheaply than any of her competitors. A high price put this country in a poor position but a declining price put it in a stronger position.

The object of the grain act was to regulate the weighing and handling of grain so that whatever the world price might be the Canadian producer would get the greatest possible return. Mr. Macdonald was optimistic about the future. He said Western Canada faced the coming year with an excellent administrative body, the Board of Grain Commissioners, with the best grain act ever had and with the best spirit of co-operation ever experienced.

Pioneer Flying Trip

New York Aviator Will Try Out Northern Route

Saint John, N.B.—An eight to ten-day pioneer flying trip between Saint John, as the eastern base, and Moscow, Russia, via Alaska and the Bering Straits, will be made late this fall or early in the spring of 1931 by George E. King, of New York, a representative of the Junkers Corporation. The flight will be made of establishing a northern air route connecting Asia with the United States and Canada in a commercial way.

Mr. King, who was here recently looking over the local possibilities in the event of such a trade route, said Saint John was an ideal eastern terminal. He could not say definitely whether he would make Saint John or Moscow the starting point in the pioneer flight planned for during the month of November next, or March, 1931. The direction of the flight and the starting point, as well as the time of departure, will depend on the nature of the weather prevailing at the time.

Canada Is Confident

President Of C.P.R. Sees Good Future For Business

Montreal, Que.—General confidence throughout Canada is unshaken by the combination of unusual conditions which has developed the present situation. The country's strength has been effectively proven and the future is not to be viewed with any degree of apprehension, in the opinion of E. W. Beatty, chairman and president of the Canadian Pacific Railway, as declared to the shareholders of the company at the annual meeting held here.

While a number of factors, particularly the failure to market Canadian grain, have slowed up freight traffic, it is felt there is nothing of a fundamental character to prevent the return of normal business conditions within the next few months.

Election Likely In July

Ottawa.—A July election seems now assured. Premier King announced that as soon as the legislation on the order paper with some minor additions could be agreed upon, opposition parties be adopted he would dissolve or prorogue parliament and permit the people to choose their representative to the Empire Economic Conference in London, England, in September.

Takes Heavy Toll

Auckland, N.Z.—Infantile paralysis is taking a heavy toll of natives in the Solomon Islands, and on the Santa Cruz group more than 80 deaths have occurred in recent weeks. Most of these cases have been isolated and severe new epidemics have been established to take care of the epidemic.

Great Britain's wealth is estimated at \$12,500,000,000, and that of Germany at \$97,500,000,000.

CHAPTER XII.—Continued

"Well, I was bustling to tell you—seemed as if I couldn't get here quick enough. I knew Charmian was out, too, and thought maybe you'd like company. Besides, I wanted to borrow a lump of butter for my dinner. I almost forgot it, same as I forgot to order when the boy came round. Don't you get up, Grandma. I know your ice box most as well as I know my own."

"And good reason, too!" murmured Grandma to herself as Miss Lizzie waddled off. "Seems as if in the last thirty years there's nothing Lizzie Baker hasn't borrowed of me—unless it's my tooth brush."

She turned to the window, stared for a moment, and then exclaimed: "Why, here comes Lawyer Garfield! What on earth does he want of me?"

CHAPTER XIII.

Charmian was finding her old schoolmate a rather unseemable companion this morning. Once Grandma's presence was left behind, she relapsed into silence, and was to all appearances giving his entire attention to the car. He didn't speak until they drew up before the Bascomb house with its expanse of glaring window glass.

"I'll run in," said Charmian. "I can get away from Emmy quicker than you can; and we mustn't loiter." "I'm not liable to loiter with Emmy Bascomb," replied Jim, stepping out before Charmian could move. "Of all the boys—"

He left the sentence unfinished, and strode up the path, while Charmian, who agreed with him about Emmy, smiled to herself as she watched him enter the side door without waiting to knock. She was regarding the new windows disapprovingly when he came out, tossed Grandma's catalogue onto the back seat, and said, as he started the engine: "Quick work that—considering Emmy's ordering a hat—by mail!"

The suspicion of a smile curved his lips, and Charmian laughed outright. "Did she ask you advice, Jim?"

Daughter Is Stronger Now

"My daughter Catherine is fifteen years old. She was very irregular, often sick at her stomach and had to stay in bed two or three days at a time. One of your booklets was sent to us by mail so I got her a bottle of Vegetable Compound. Catherine has been taking it regularly and she is gaining in weight and every way. I told the neighbors and four other girls are taking it with good results."—Mrs. Clarence Jenkinson, Box 14, Thombe, Ontario.

Lydia E. Pinkham's Vegetable Compound

W. N. U. 1857

had to struggle as this poor woman must be struggling to keep the wolf from that shabby, sagging door? Was it just part of the day's work to them—collecting what must be the pitiful savings of weeks and months? And was Jim, who seemed so kind, like all the rest? Didn't he care . . .

Charmian pulled herself together suddenly, realizing that Jim had been gone some time, and that unless he hurried Doctor Carter would undoubtedly dine on the contents of a cold bean pot. Then the door opened, and though the woman smiled and shook hands with Jim, Charmian saw the unmistakable traces of recent tears in her red-rimmed eyes, and the girl's heart hardened a bit toward her old playmate and the hard, harsh world of business that was a part of him.

"Did she pay it?"

The question came almost against her will as they started back.

"She did," said Jim. "That's why I went there, wasn't it?"

"And you don't feel like—like Shylock?" burst from Charmian in sudden, overwhelming indignation.

Jim looked at her in amazement. "Why in thunder should I feel like Shylock?"

His voice was cheerful, more cheerful than it had been since they started out.

"If you don't know," Charmian replied coldly, "it would be useless for me to try to tell you." And it was as he who was silent on the ride home.

CHAPTER XIII.

Sorry the ride wasn't more of a sorry," said Jim, as he left Charmian at the side door.

He smiled rather wistfully; but it was the words, not the smile that lingered with her as she turned on the stove drafts. Something in Jim's voice had brought back the uncomfortable feeling she had experienced that day, when she thought she had hurt him. And he was right. The ride hadn't been much of a success. Charmian was, she told herself, ridiculously disturbed about it. Only the persistent pounding of Great-grandfather Davis's gold-headed cane, roused her to the fact that she hadn't run in to speak to Grandma as he was almost invariably habit on reaching home.

"Well," exclaimed the old lady, as her granddaughter appeared in the doorway, "so you'll not be long, but what was it a tramp, so I made all the noise I could. Where's Jim?"

Gone? Dear me, I had something to tell him. You needn't rush round so, childy, because the doctor won't be here to dinner. They're taking some one to the hospital at Eastboro. He telephoned an hour ago. Sit down, Charmian, and let the dinner wait. There's news a-plenty."

"News? Who brought it?"

"Lizzie Baker; and like to die of apoplexy she was from running. And after she'd gone home (by the back door after borrowing some butter), Gam Garfield brought the rest of it. He wanted to know the value of those beads we sold the deacon?"

Charmian sank limply into a chair. "Don't tell me we've got a law suit on our hands!"

"And no sooner was Lizzie gone than I looked out and saw Gam Garfield crossing the street. It gave me a start! He walked in kind of solemn, too. He likes to look that way when he has a case—sort of important. But I wasn't going to have little Gam Garfield put on airs with me; so I said, 'Morning, Gam. I was just thinking of the time I caught you hanging by the seat of your trousers from your Porter apple tree. You were seven years old, and you'd eaten yourself sick, so I didn't have the heart to give you the spanking you deserved for stealing fruit! That sort of—well, took the wind out of his sails, as you might say.'"

(To Be Continued.)

Persian Balm promotes daintiness, charm and beauty. Magical in its effect on the skin. There is nothing like it for creating and preserving a lovely complexion. Cooling, caressing, it soothes and relieves all roughness caused by weather conditions. Delicately fragrant, it enhances the most finished appearance. Makes the skin rose-leaf in texture. Truly a peerless toilet requisite for every discerning woman.

Eldon, the smallest parish in Hampshire, England, has a church, three cottages and a population of twelve.

Base Ball

Baseball players use Minard's for stiffness, strained ligaments and bruises. They also recommend it as a rubdown.

MINARD'S
"KING OF PAIN"
LINIMENT

WRIGLEY'S

Life-like good golf—is made up of many little things each one of which helps the score. Better digestion—steadier nerves—clearer brain, are all factors that count and are joined from the use of Wrigley's.

India's Caste System
Not Breaking Down

Is Strong As Ever Among Orthodox, Says Missionary

"For public service in India," engraved on the back of an imposing medal, bearing the King's insignia, in brief the story of Dr. Margaret MacKellar's 40 years' sojourn and medical work in the Empire of the East, and of a king's recognition of a lifetime of devotion. It is the Kaiser-Hind Medal, second only to the Victoria Cross, and was pinned on Dr. MacKellar. It is awarded regardless of creed or color, and was, in this case, presented mainly for outstanding work during famine and plague.

But there is another medal of which Dr. MacKellar, a gracious modest, little lady, with a very large heart, overflowing with India's need, is scarcely less proud. This medal is of pure gold and has four gold bars attached, one for 25 years of service, because such medals are given only to those who have served in India for a quarter of a century, and the other three denoting five years each. It was presented at the diamond jubilee of the Presbyterian Church in Canada, which met in Montreal in 1924. The last two bars were added recently.

Dr. MacKellar is a graduate of Queen's University, and she celebrated the 40th anniversary of her sailing from Halifax for India on May 3, this year. Forty years ago her dedication service was held at Ingersoll, in 44 hours, 54 minutes. The run was made purely as a bit of sport.

The "caste system" is not being broken down in India, and never will be, for, although caste is not recognized by the Christians, it is as strong as ever among the orthodox. The missionaries said: "There are no less than 17 different cook-houses in connection with the hospital, so that women of different castes may have their food prepared separately."

The sunlight on one side of the street walks two high-caste men, and in the shadow of this side sinks the low and outcast. There are 22,000,000 who are literate to some degree, but that is only 22,000,000 out of 320,000,000.

Camper Carry Minard's.

Had Excellent Idea

South Carolina Editor Expected To Profit Two Ways

Free Rooster Saturday

Some weeks ago I bought a white Leghorn rooster. To be Garrett says he is worth \$25. But the rascal crawls at 3 a.m. and I don't get to bed until after 12. Being waked at 3 makes me sore. So I'm giving him away Saturday to some body who pays a year's subscription. You may be the one to get him. If only one person pays his subscription, he gets the rooster. If two pay, we'll draw. If a dozen or more pay we'll draw.

Conventions In Maritimes

Two important conventions are to be held in Wolfville, Nova Scotia, during June—that of the Canadian Seed Growers from the 19th to 21st of that month, and that of the Canadian Seed Testing Association, a week later. As regards the second unit, it is the first time that the Maritimes have been chosen for its convention.

Radio-telephone conversation which was held recently between New York and Sydney, Australia, by way of London, a distance of 15,000 miles, is said to be the longest on record.

Teach Blind Children Physical Training

Unable To See Instructor Boys Follow Commands Easily

Blind children, handicapped by their lack of sight, have overcome many obstacles imposed by nature, but probably one of the most important achievements to their credit within the last year is their triumph in the realm of physical training, an insight into which was given at a class conducted by H. C. Patterson, physical director of the Central Young Men's Christian Association, at Montreal.

Unable to see their instructors, the boys followed the commands with the practiced ease of their more fortunate brothers who can see, and it was explained that, as a result of the carefully conceived plan for training these children, it was possible to lead them in certain exercises, the object of which is to help them increase their physical fitness. Similar results have been obtained with deaf and dumb children.

GIVE CONFIDENCE TO YOUNG MOTHERS

A simple and safe remedy for the common ills of babyhood and childhood should be kept in every home where there is either a baby or a young child. Often it is necessary to give the little ones something to break up a cold, allay fever, correct sour stomach, and banish the irritability that accompanies the cutting of teeth.

Experienced mothers always keep Baby's Own Tablets in the home as a safeguard against the troubles that seize their little ones so suddenly and the young mother can feel reasonably safe with a box of these Tablets at hand and ready for emergencies. Baby's Own Tablets are a mild but thoroughly laxative that act without any of the harmful effects of medicine dealers or by mail at 25 cents a box from The Williams' Medicine Co., Brockville, Ont.

A Splendid Record

Lifboats stationed around the coast of Britain and Ireland, manned by volunteer crews, have saved 62,187 lives in little more than a century, an average of eleven lives a week.

Worms feed upon the vitality of children and endanger their lives. A simple and effective remedy is Mother Graves' Worm Extremator.

On July 11, 1905, a special Santa Fe train, chartered by Walter Scott, wealthy miner, completed a run from Los Angeles to Chicago, 2,265 miles, in 44 hours, 54 minutes. The run was made purely as a bit of sport.

Use Minard's for Burns.

The sea of matrimony is very rough. That is why one voyage is usually enough.

"I Was Skinny and Tired. Now Peppy. Gained 11 Lbs."

"Had tired feeling, no pep. But Ironized Yeast gave me pep, much stronger. Gained 11 lbs. Bolls and plumpies disappeared."—Black Letoria.

Amazing new Ironized Yeast adds 5 to 15 lbs. in 3 weeks. Changes "skinny" weak body to strong, well-developed form all admire. Bloated skin gets clear and rosy like magic. Nervousness, indigestion, constipation disappear overnight. Sound sleep. New pep from very first day.

Two great tonics in one—special weight-building Malt Yeast and strengthening Iron. Pleasant little tablets. Far stronger than unmediated results. Results in 1/4 time. No yeast pills. No gas.

Don't be "skinny," weak, unattractive. Get Ironized Yeast from drug-gist today. Feel great tomorrow. Money back from manufacturer if not delighted with quick results.

Little Helps For This Week

"Whoever will come after Me, let him deny himself, and take up his cross, and follow Me."—Mark vii. 34.

The cross is not so hard to bear. Since I have learned to say, O Lord, I walk not anywhere unless Thou lead'st the way.

—S. R. Leroy.

Both above and below, which way soever thou dost turn thee, everywhere thou shalt find the cross; and everywhere of necessity thou must have patience if thou wilt have inward peace, and enjoy an everlasting crown.—Thomas A. Kempis.

To repel one's cross is to make it heavier.—Henri Frederic Amiel.

Coal mines of France have orders for more coal than they can produce.

EVERY BIRD LOVER should have this new revised edition of "Brook's Book on Birds"—replete with 144 pages of practical advice on the treatment of birds. The regular price is 25 cents, but to save the paper who enclose in cents, addressed to THE WINDMILL AVENUE, EAST, WINNIPEG, a copy of Brook's Book on Birds will be sent along with a generous supply of Brook's Bird Seed—correctly balanced diet prepared from the finest seeds selected from all parts of the world; together with a real treat for your bird, a sample of Brook's Bird Treat, a tonic that builds the plumage and strengthens the song.

Every Bird Lover Should Have This Book

Keep FIRE at Bay with GYPROC

FIRE seldom visits houses having Gyproc Wallboard ceilings, partitions, walls and sheathing. On the contrary Gyproc has saved many homes.

This pioneer Canadian fire-safe gyp board has a new Ivory coloured finish this year that makes decoration unnecessary (when painted). It is just the thing to use for making extra rooms in the cellar or attic.

Quickly erected, inexpensive, structurally strong, Gyproc Wallboard gives permanent fire protection.

An Explanation

The reason The Journal is reduced in size this week is owing to working short in the office. Mr. Holstead being called away owing to the death of his father.

Confirmation Services at Blairmore and Coleman

Bishop Sherman Brings Messages of Inspiration and Courage to Church Members

Rev. L. Ralph Sherman, D. D., Bishop of Calgary diocese, confirmed several candidates at St. Luke's, Blairmore, and St. Alban's Coleman, Wednesday afternoon and evening, following which brief receptions were held at each place to permit members of the congregations to meet him.

At St. Alban's he also dedicated the bell and belfry, the pulpit and other memorial gifts in the church which have been given in the past two years.

This will be his last visit to the southern portion of the diocese prior to leaving for the Lambeth Conference at London in June, which is held every ten years, when bishops from all Churches of England dioceses throughout the world gather to confer on general matters concerning the work of the church and its development.

James Holstead Passed Away at Macleod

On Saturday at 4 p.m. there passed away at Macleod James Holstead, father of Thos. Holstead, of The Journal office. Shortly before noon a telephone message was received stating that his father was sinking, and he immediately left, arriving there about an hour before he passed away.

Mr. Holstead had been suffering from cancer for two years, and a year ago went to the Mayo Institute, Rochester, but no relief could be given, and his illness was marked by patient suffering, to which death came as a merciful release.

The funeral was held on Monday, and was conducted by Capt. N. B. Kovitch and Lieut. Zoutendyk, of the Salvation Army, burial being in Macleod cemetery. Many beautiful floral offerings were sent by friends of the family and relatives. Those from a distance at the funeral were Mr. and Mrs. J. F. Kirkham, and Mr. and Mrs. James Gibson of Lethbridge.

Besides his wife and son Thomas, he is survived by a daughter, Mrs. E. C. Pratt, of Castlegar, B. C., who was unable to attend the funeral owing to serious sickness. The deceased was for many years an employee of the Town of Macleod, and was highly respected by all who knew him.

The pall bearers were fellow citizens of the deceased. He was born in Lancashire, Eng., coming to Macleod with his family in 1911, and was in his 61st year.

J. Ford, Returning Officer

For the provincial election James Ford has been appointed for Rocky Mountain constituency, and within the next day or two he will appoint enumerators and make arrangements for deputies and poll clerks if a poll is to be held.

Polling is taking place to day in the K. of P. hall for vice-president of the M. W. U. of C., the candidates being Jas. Sloan of Lethbridge and Mike Novak of Wayne.
